A PERFECT FIT

Offered in 7 different sizes, one of them will be the perfect fit for your indoor or outdoor project. Why the name Impressionist®? The thing is, impressionist artists were not trying to paint a reflection of real life, but an 'impression' of what the person, light, atmosphere, object, or landscape looked like to them. Capturing the movement and life of what they saw and show it to us as if it were happening before our eyes. That's why they were called impressionists!

For us at Ambiance®, the Impressionist® Electric Fireplaces are a radical departure from the traditional fire. This exquisite series of electric fireplaces is changing the way we think about the fire as being a piece of art.
